COMMERCE CHAMBER LUNCH

The season of the weekly noonday luncheons of the Chamber of Commerce opened yesterday with the election of officers for the following year. Richard A. Bates, superintendent of the Bates Expanded Steel Truss Company, was nominated and elected as president. City Engineer C. K. Wallace was re-elected as vice-president. Alan Lewis, of Smith, Bader Davidson Real Estate firm as secretary, and Leonard Smith, of the Smith, Hamilton Real Estate Co., as treasurer. A committee of five members were appointed to nominate thirty directors to be voted upon at the next meeting of the Chamber.

Mr. Bates, who was elected as president of the organization, said yesterday that he would not be able to become active in the Chamber of Commerce work, account of the fact that he is filling the official position of his father as president of the company at the Chicago office during his absence abroad. Besides filling the position of superintendent at the local plant. Attorney Peterson was urged by the members to accept the presidency of the organization for another year, but

declined the nomination. In vice-president Wallace's address yesterday he said I was responsible last year for the nominating and electing of Mr. Peterson and believe I did a good turn for the organization, but I find this year that Mr. Peterson will not have time for this work and ask that another member take up the work. I can say that during the time Mr. Peterson was at the head of the Chamber of Commerce that he has constantly been on the job and since his election to the office of president there has never been a loaf untoward where the attention of this organization was called upon or required. It can be recalled by many members of this organization and others that Attorney Peterson always worked in consonance with his investigation committee, and when a committee failed to be at the appointed time, Peterson was there in their stead. If the "bug" was passed to him it was always cheerfully accepted, knowing that the work he was performing was for the good of the community. The number of friends and acquaintances kindred, the efficient work performed during the time Mr. Peterson served as president and the cooperation received from other organizations, points to a successful year and accomplishments for the administration.

The members of the Chamber of Commerce say that Mr. Peterson has been one of the few officers to install life, knitting the ties of this organization and to have really achieved something during his term as president.

ORDER FOR TANK CARS

It is reported that the General American Tank Car Company of East Chicago has received an order from the Rock Island railway for 200 new fifty-ton gondola cars.

The Missouri, Kansas & Texas has let contracts to the Granger Corporation for four 100-ton gondola cars, 32,000 carrel and four 20,000 steel oil storage tanks, in line with its recent decision to change from coal burning to oil burning locomotives. The Missouri Pacific bought a car each of plates and wheels and other material for immediate needs.

76 MEETINGS PLANNED

It is said that seventy-five republican meetings have been scheduled for Indiana Harbor, between now and the city election, November 8th. It seems as though the entire energy of the G. O. P. forces are being concentrated on the west side of the city.

HIS WIFE MISSING

Steve Palack of 18th and Carey sts., Indiana Harbor, says that his wife has been missing since last Tuesday. Steve said that he thought possibly his wife was visiting in the neighborhood but when she did not show up yesterday morning he became worried. "Wondered over what?" said the officer. "Over the \$100 she took with her," replied Steve.

SCHOOL LEVY FIXED

The School City Levy for the year 1921-1922 for the City of East Chicago was fixed last night to correspond with the city levy of 64 cents. The proposed rate was 70 cents, but after a two hour heated argument a party of taxpayers were able to convince the board of education that this excessive rate could be curbed, and before leaving forced a 6 cent slice in the proposed levy. It is said that this is the first time a school city levy was ever contested and the taxpayers demonstrated against the proposed rate of the board of education.

The appropriation of the tax levy proposed to be levied on each \$100 of taxable property within the city, will be:

Special Fund20
Bond07
Tuition Fund37
Total64

On the assessed valuation of \$84,022,690, the fixed levy should bring into the school treasury \$537,899.

Twin City
News Notes

RHEUMATISM
LEAVES YOU FOREVER

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Pains Cease to Bother the System Within Twenty-four Hours.

Every Druggist in this country is authorized to say to every rheumatic sufferer that if he bottles of Allenbur's sure cure of rheumatism, does not stop all aches, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenbur has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiable and where the patient was helpless. Mr. James H. Allen, the discoverer of the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenbur decisively cures their worst of all diseases, and he has instructed West Drug Company to guarantee it in every instance.—adv.

WEAK
WOMEN

cannot hope ever to become strong and well again unless they have plenty of good, rich, red blood of the kind that comes from Nuxatedron—helps make. Nuxatedron is like the iron in your blood and like the iron in spinach, lentils and apples, while metallic iron is iron just as it comes from the mine of strong acids on iron filings. Nuxatedron does not irritate the teeth nor upset the stomach. It is an entirely different thing from ordinary metallic iron. It quickly helps make rich, red blood, revitalizes worn-out, exhausted nerves and gives you new strength and energy. Over 1,000,000 people annually are made well by Nuxatedron. Beware of substitutes. The genuine has N. I. stamped on every tablet. Always insist on having the genuine.
